

# MYSTIC AQUARIUM-UNIVERSITY OF CONNECTICUT RESEARCH EXPERIENCES FOR UNDERGRADUATES (REU)

***Spend your summer doing research on how global change (e.g. pollution, climate change) affects marine organisms and their ecosystems!***

Our Research Experiences for Undergraduates (REU) offers a unique collaboration between the renowned Mystic Aquarium in Mystic, CT and the University of Connecticut, Avery Point located on Long Island Sound.

**Offered for 10 Weeks (June - August) in 2021, 2022 & 2023**

## WHAT YOU WILL GAIN:

- Access to both Mystic Aquarium and UConn's resources and expertise
- Training in cutting-edge marine research (both field and laboratory opportunities)
- Professional development such as training in science communication, data analysis, ethics, etc.
- Job shadows at Mystic Aquarium
- One-on-one mentoring with experts in Marine Science
- Exploration of career opportunities
- Monthly stipend, room and board, travel expenses

For more information or to apply visit [MysticAquarium.org/REU](https://MysticAquarium.org/REU)

Supported by the National Science Foundation Division of Biological Infrastructure in the Directorate for Biological Sciences and the Division of Ocean Sciences in the Directorate for Geosciences (DBI-1931117).
