SUMMER RESEARCH ASSISTANTS
Department of Environmental Sciences and
Center for Vector Biology & Zoonotic Diseases

We anticipate thirteen Seasonal Research Assistant positions at the Center for Vector Biology & Zoonotic Diseases at The Connecticut Agricultural Experiment Station to assist in Mosquito Research and Surveillance Programs on West Nile Virus and Eastern Equine Encephalitis Virus.

1. Laboratory Research Assistant- Mosquito and Virus Testing
   Duties: Preparation of mosquito specimens for virus testing and computer-based data entry. Will work with human viral pathogens in a secure Biosafety Level 3 containment facility.
   Background: Course work and lab experience in cell and molecular biology, biochemistry, microbiology, and/or immunology is desirable. Training provided.

2. Laboratory Research Assistants- Mosquito Identification
   Duties: Microscopic identification of larval and adult mosquitoes, preparation of specimens for virus testing, computer-based data entry, maintenance of mosquito and laboratory animal colonies, and occasional field work.
   Background: Course work or experience in insect identification, use of diagnostic keys and microscopes, mosquito biology, and/or entomology is desirable. Training provided.

3. Field Research Assistants- Mosquito Trapping and Surveillance
   Duties: Field-monitoring and collection of larval and adult mosquitoes from wetland swamps and other habitats, laboratory sorting of mosquitoes. Substantial travel to mosquito research sites throughout the state.
   Background: Course work or experience in biology, entomology, and/or wetland ecology is desirable. Must possess a valid driver's license. Vehicle and training provided.

Positions are durational from May 3 through October 29, 2021 with variable start and end dates, depending on the position and the applicant's availability. The hours of work are 8:30-4:30 M-F and the salary is $13.00/hr.

To apply, interested candidates should submit: (1) a cover letter indicating interest in the position, (2) resume, (3) college transcripts, and (4) names and contact information for 3 references (e-mail preferred) to: Dr. Philip Armstrong, Center for Vector Biology & Zoonotic Diseases, The Connecticut Agricultural Experiment Station, P.O. Box 1106, New Haven, CT 06504. Phone 203-974-8510; FAX 203-974-8502; e-mail: philip.armstrong@ct.gov

Equal employment opportunity means employment of people without consideration of age, ancestry, color, criminal record (in state employment and licensing), gender identity or expression, genetic information, intellectual disability, learning disability, marital status, mental disability (past or present), national origin, physical disability (including blindness), race, religious creed, retaliation for previously opposed discrimination or coercion, sex (pregnancy or sexual harassment), sexual orientation, veteran status, and workplace hazards to reproductive systems unless the provisions of sec. 46a-80(b) or 46a-81(b) of the Connecticut General Statutes are controlling or there are bona fide occupational qualifications excluding persons in one of the above protected classes. To file a complaint of discrimination, contact Dr. Jason White, Director, The Connecticut Agricultural Experiment Station, P.O. Box 1106, New Haven, CT 06504, (203) 974-8440 (voice), or Jason.White@ct.gov (e-mail). CAES is an affirmative action/equal opportunity provider and employer. Persons with disabilities who require alternate means of communication of program information should contact the Chief of Services, Michael Last at (203) 974-8442 (voice), (203) 974-8502 (FAX), or Michael.Last@ct.gov (e-mail).
